- He was a nice T.A. who always energetic and he was very interested in answering our questions. He always had extra office hours to accommodate those who couldn't make it during regular office hours. He was helpful when we had review sessions. He was always organized and was able to explain things the professor briefly discussed. He would be an excellent teacher.
 - I honestly really liked my TA and I hope I get to have him again some day. He is always full of energy and made the class fun for me. Really enjoyed it.
 - Lin is simply amazing. His passion for mathematics and teaching it is very obvious from the moment he steps up to teach. I do not want to praise him so much, but all I can say is that every other mathematics TA can learn a lot from the way he teaches mathematics. I wish my future mathematics TAs are as amazing as Lin! Just give this guy a full time professorship!
