- BON-SOON LIN IS THE MAN! He is the only reason I have enough of an understanding of Linear Algebra to hang on to the words Prof. Penneys is saying in lecture. Not saying that Penneys is a bad prof/lecturer, just that he seemed to assume we would have a bit of a background in proofs from the get go, and Bon-Soon really filled this gap for me. He's the most effective TA I have ever had, going above and beyond and holding weekend office hours before our midterms on both Saturday and Sunday for 5 hours or so. Really well done discussions as well. Go Bon-Soon!
  - Bon Soon did an incredibly good job of explaining concepts, it really helped my understanding of concepts when he went over them in discussion. I also really appreciated how available he was for office hours; he had them nearly every day. He is definitely the best math TA I have had at UCLA.
  - Bon-Soon is a supremely charismatic and intuitive teacher. If it were not for him, I would have dropped the course a lot earlier. He did a really good job of making sure that we understood the basics before going into more complex problems.
  - Bon-Soon is sick
  - Bonsoon is a wonderful TA. He cares about the students and goes above and beyond to make himself available for help outside of class.
  - Everything was really good.
  - He is absolutely one of the best TAs I have ever met in UCLA. He never hesitates offering help to his students. He even extends his office hours before every exam. His passion about teaching encourages his student to study this course. Strongly recommend! Hope he could become math professor someday!
  - He is nice!
  - He is the best TA I ever had: knowlegable, caring and devoted. He always has extra office hours to help the students out and his explanations make everything so much clearer. I cannot imagine how I would be doing in this class without him.
  - He was very helpful in section and office hours.
  - One of the best TAs (and certainly the best math TA) I have ever had. Was very clear and precise in explanations and catered very well to the need of his students. He goes out of his way to share his knowledge with us, even setting up weekend office hours for us to attend. I have really enjoyed being in his section.
  - TA is really great, and possess the ability to teach. Very patient and teach even better than professor.
  - The best TA I have ever met in UCLA!!!
  - This TA was very friendly and helpful in both discussion and office hours. He tried to keep the material as fun as possible by making jokes whenever the opportunity presented itself, which made it easier to stay engaged in his lectures.
  - This instructor was very helpful because he was able to hold multiple office hours during the week. His teaching style was very effective and thorough since he offered tricks and methods that made the problems of the course seem simple and understandable.

- bonsoon, you the best
- i honestly think he is the best TA out there. i didnt have to go to the lecture to understand the materials. this guy explains everything so well and clearly that i thought he was my professor. i just went to his discussion and office hours and got an A on the midterm. so thankful for this guy.
- responsible and good TA
