- Although my discussion section has a time conflicts with my other class, and I cannot make it every time. Lin Replied my email very fast and helpful which helps me a lot in this class.
 - BON-SOON IS AMAZING!!!!!! :D
 - Bon-Soon was a very, very effective TA. He thoroughly covered topics from class and made them much more clear and concise with helpful examples and definitions. He helped me understand the material much better.
 - Bon-soon Lin was easily the most concerned and helpful TA I've had in my experience here at UCLA. He had office hours 5 days a week! Coming from a student who had not taken math for a while and was just getting warmed up again, Bon-Soon was extremely helpful in getting me up to speed in math and consistently impressing me with his teaching skills. If I ever came in with a question, I always left understanding it inside and out. He doesn't shy away from diving into more of the complex details of linear algebra, but he also explains the concepts in such a comprehensive and clear manner that it's near impossible to leave his office confused. Because of this I'm extremely thankful to him for helping me overcome my initial stumbles when relearning math. Overall I think Bon-Soon is an amazing TA and will probably be one of the best, if not the best, I ever have in my college career.
 - Bon-soon is a wonderful teacher, communicator, and person. Thanks a lot.
 - Bonsoon was one of the best TA's i have had at UCLA, and his ability to convey the material of this course reflected his mastery of the material. He teaches better than many tenured professors here!
 - By far the best Math TA I've had for a math class at UCLA. At times, I felt like I learned more from going to discussion than I did in class, even though I was learning in lecture. Each week, the TA is able to effectively teach all of the material and I walk away knowing and remembering how to do problems on that topic. His midterm/final review sessions are also very helpful and show how much the TA is willing to help the students out.
 - Honestly, the only reason that I did well in this class is because of this TA. Thank you so much. I wish everyone were as dedicated to their work as he was. He put in extra hours every day and made sure that every single one of us understood the concepts he was talking about. This is probably the only exam I was able to walk into fully confident. Keep up the excellent work and I'll miss having class with you so much.
 - I couldn't go to discussion because it conflicted with another class, but Bonsoon was nevertheless helpful when I went to his office hours!
 - One of the best TA's i have had
 - The BEST TA I have ever had. Available EVERY DAY, excellent in explanation, extremely concerned, he even prepared his own independent review, with questions created by himself and then key sheet prepared the same after review. Office hours everyday, and almost unlimited length, TA would stay as long as we needed. Absolutely outstanding! this TA should definitely be rewarded for his hard work and committment!
 - your enthusiasm is very helpful for encouraging us to learn. I also enjoyed your careful explanations of topics. you made the material much easier to understand
