- Bon Soon is a great TA. During discussion he goes over problems we need help with all while including topics and how/why they work. He is also very helpful outside of discussion during his office hours. He is always very upbeat and excited to teach.
  - Bon Soon is such an amazing T.A. He always explains and expands upon concepts taught in lecture and always has example problems to work through during discussion. He answers any question that students have and solves any problems that students struggle with. He is also so passionate about the material and it's refreshing to have such an uplifting TA for an early morning discussion.
  - Bon soon knows what he is doing cause he knows the drill. Someone that could get a great collaboration with if you keep your end up. Initially I was thrown off by him being loud in section but it works well.  
Great guy,
  - Bon-Soon is great at explaining problems during discussion - very thorough and clear. Best TA I've had so far!
  - Class is a lot more entertaining with the happy and joyous attitude.
  - Extremely enthusiastic, helpful, almost made math exciting
  - Great teacher, great examples, funny personality! grading was a bit hard though
  - He is super helpful. Does exactly what the students ask for. Explains everything in great depth and helps students understand material in an efficient manner.
  - I looked forward to attending section because the TA was very knowledgeable and explained the concepts in an easy-to understand way. Questions were answered and thoroughly explained the grading of homework and exams was very fair.
  - I never really went to discussion because I didn't feel like it really added to what we learned in class. If I understood the homework and practice problems it felt like a waste of time, but the TA was good with what he was supposed to do.
  - Lin was a great T.A. he would try his best to help us with our homework and prepare us for the exams.
  - TA made the course material easy to understanding and gave excellent examples of topics. I had this TA for multiple courses and thoroughly appreciated his level of concern for students properly grasping a good understanding of course material.
  - The TA knew his material well and helped explain topics that were confusing in class. I found going to discussions useful for homework and tests.
  - best T.A. ever
  - very enthusiastic and helpful
