- Bon-Soon is the best!!! He has an amazing gift to teach and it's really insane. He explains every concept so well and makes it easily understandable. HE IS THE BEST TA I HAVE EVER HAD. He is knowledgeable on the material, good at communicating, and very patient.
- Bon-Soon was a great TA—he was funny and made the material less stressful because he understood it so well. I almost always left his discussion with a better grasp on what we were learning from the worksheets he led us through.
- Bon-Soon is an effective TA who brings enthusiasm and passion to his teaching. The only issue with discussions were that he did not have time to go over all of the worksheets given to us, but that is partly due to the length of the worksheets
- He was very approachable and engaging during discussion! Probably my best math TA so far.
- Passionate about course material. Effective teaching techniques.
- The TA seems very informed with the concepts that pertained to this class. He was also able to answer a lot of student's question on the spot and explained it in a way that was very understandable.
